RE: Skills for the Crew Leader/Professional
Construction Supervisor Class

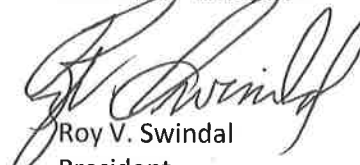

Dear Sir:

Your presentation to our Crew Leaders was exemplary. Over the last 30 years I have been involved in many training classes for our company. The information that is presented in this training program is at best dry and the effort you make to engage everyone makes this course one of the best we have ever attended. The enthusiasm your team has turns what could be a very boring couple of days into a best in class program.

Your experience as General Superintendent for all those years gives you and your firm a great advantage over the other competing companies. Anytime your firm offers training that we deem necessary we will be calling HB Training & Consulting. Your company makes training for field personnel exciting. If there is ever anything we can do to help your organization please don't hesitate to call.

Sincerely,

MASONRY ARTS, INC.
